Figure 3

This document is intended to show the "continue game functionality in nGame's games, in this case we will use "Alien Fish Exchange" as the example.

Figure 4

Figure 5

Figure 6

Figure 7

Figure 8

Figure 9

Figure 10

Figure 11

This sequence shows the user logging in to the games server and selecting the game "Alien Fish Exchange"

The next sequence shows "Alien Fish Exchange" in action and the user playing it. Obviously starting at "Day 1"

Figure 12

Figure 13

Figure 14

Figure 15

Figure 16

Figure 17

Figure 18

At this point we will assume that the game was terminated, i.e. Through loss of connection or because the user chose to.

Now we come to a point where the user wishes to continue the game of "Alien Fish Exchange" they were playing before, so the user repeats the login process as before.

But this time when they come to select the game they want, (in this case "Alien Fish Exchange") the user is given the opportunity to continue their current game.
